

## REPORT OF AVERAGE AGE ATTENDANCE

This study was done for three 1<sup>st</sup> services, and four 2<sup>nd</sup> Services, including one Contemporary Service during months of May and June 2010. The resources used were the birthday list from our church office and my own personal knowledge. I would estimate the error rate to be +/- 3.

Average Age 1<sup>st</sup> Service = 51.52

Average Age 2<sup>nd</sup> Service = 49.24

Overall Average Age = 50.38

In addition I also broke down the attendance within certain age brackets. The total number is the total attendees for all seven services.
